Do You feel sleepy and not a bit like working in the afternoon? Perhaps it's because of the kind of lunch you're eating—too heavy an dtow hard to digest. Why not try the Palace restaurant on Commercial street, where all the baking is done in those famous slow-process ovens, which turn out light appetizing, wholesome things! You'll save money, too.

Report is, "No Fish"—E. P. Noonan, secretary of the Alaska Fishermen's Packing Company, yesterday received a dispatch from E. B. Denning, at Bellingham, Wash., to the following effect: "There are no fish; the run is practically over." This in answer to a direct inquiry put by Mr. Noonan.

A Good Position—Word comes from the northshore that the venerable P. J. McGowan, now 96 years of age, and the oldest active business man in the lower Columbia country, wants an amanuensis and bookkeeper. This means a good position for some capable, faithful man, who has the knack of doing as he is told.

Something Doing—Councilman Leander Lebeck has nearly completed his driving of piling for the new gangway at the federal quarantine station at Knappton, and will soon begin driving the foundation piles for the Sloop-Jeffries milk depot at Thirteenth and Exchange streets. STATE FISH WARDEN VAN DUSEN RETURNS FROM TILLAMOOK WITH SOME FINE PICTURES AND ABUNDANT HOPE.

State Fish Warden H. G. Van Dusen, who has just returned from a trip to Tillamook county, brought home with him seven splendid views of the new fish-rack, trap and spawning pens, lately erected at the Trask river hatchery, nine miles above tide water on the Trask. The photographs indicate that its builder, Superintendent W. A. Smith of the Yaquina hatchery, spared no pains in making the plant stout and serviceable in all ways, and it is a counterpart of one or two others he has built for the state in this relation.

There were thousands on thousands of salmon gathers at and above the Trask river hatchery, while Warden Van Dusen was there and he is thoroughly satisfied that this plant will give a fine account of itself in the near future. In fact, he is very cheerful over the outlook from every hatchery in the state and believes that all previous records will be smashed this season. He attributes these satisfactory conditions, primarily, to the rigid enforcement of the admirable law, which prohibits all gear fishing for salmon above the tide-ways in the rivers.

The last of the present month will tell the new story of the Oregon hatcheries, and it is his present expectation, that there will be infinitely more eggs taken than the department people can handle at the hatcheries; and the excess will be carefully deposited at sheltered points above the hatcheries, for the purposes of natural spawning.

Will Pay Reward—The item in yesterday morning's Astorian relative to the two boys who had stolen a watch from the steamer Columbine, frequenting saloons, Mr. Al Seafold, president, and J. V. Burns, secretary of the Royal Arch, state that that organization has offered a reward of \$25 for the arrest and conviction of any saloon keeper harboring or selling liquors to minors. They are making a determined effort to keep young boys out of saloons. Of course there are times when newsboys and messenger boys are compelled to go to saloons, but none of the liquor dealers will permit them to remain in the saloon, neither will they sell them any liquors.

Young Men's Institute—There will be a pleasant time at this evening's session of the Young Men's Institute, No. 106, when a large class of initiates will be taken into membership and a jolly banquet will add emphasis to the pleasures of the hour. This fraternity is growing steadily and is in flourishing condition, socially and financially, under the sturdy leadership of President E. P. Noonan; Financial Secretary J. P. McCann, Recording Secretary Waters, and First Grand Vice President W. P. O'Brien. Mr. Shea is a Grand Director of the Northwest Jurisdiction, comprising Oregon, Washington, Idaho, the two Dakotas, Montana and British Columbia.

More New Babies—Does Anyone here recall a day in 1906 on which there was not a baby born to some Astoria family? Apropos of this conundrum, it may be pertinent to remark that—the Astoria stork hovered over the new home of Captain and Mrs. Charley Jordan, at Duane and Sixth streets yesterday and left a fine boy baby there to brighten their future; the generous old bird then went to the cottage of Mr. and Mrs. Otto Libke and deposited a little girl and went back after some more, of the coming of which due record will be made.

Star Course—Beginning today the tickets for the course will be placed in the hands of the subscribers. Seats may be reserved once for the entire course at Martinson's tailor shop, on Eleventh street, on the afternoon of November 15, without charge. The dates are: Welbourn, Dec. 3; Jacob Rills, Jan. 18; Dr. Hillis, Feb. 18; The Dunbars, March 18. Any who desire tickets and have not subscribed, in order to get desirable reserved seats for the course may purchase tickets for the course at Martinson's, \$2.00 for the course. Single tickets, 75 cents.

"You have appendicitis and lung trouble," announced the physician, as he peeped through the patient with his X-ray apparatus; "also trace of liver complaint and a mild form of dyspepsia; also \$28.10 in your pocket. My fee is \$28." Here he turned off the current and told the patient the examination was over. "It's all right, doctor," said the patient, "but it seems to me that you have neglected an opportunity to secure ten cents and other things you mentioned."

At the Big Shops—The Astoria Iron Works is engaged, among other big things, in the construction of the new boiler for the steamer Volga. The Melville is also down at the works having her machinery overhauled and her brasses babbitted. The Shamrock is there, also, having new ventilators installed.

See whiz, how the automobiles do go! Near Buffalo recently an automobile was driven 492 miles in four hours, or at the average speed of 123 miles an hour. That reminds us of the Kansas farmer who was blown into the next country in a fearful storm and where a preacher condoled with him, saying, "God was with you all the time." The farmer said, "Well, if he was, he was going some."

Bids Will Be Opened—The committee on public property of the common council have advertised for bids for the construction of the foundation for the new engine house to be erected on the O. R. & N. property on Commercial street, and will open the same on next Monday afternoon at 2 o'clock. The city has a lease of the property for a term of years and it is the intention to move one of the engine companies to the new building when erected.

Amusing and Realistic—The long and lively films now on exhibition at the Waldorf concert hall are among the best Kinetoscope work ever shown in this city, and include a remarkable presentation of Arabian magic and its alluring transitions; and elopment, with all its accessories of fun and danger; the tribulations of a bibulous individual and his erratic spouse, who goes with him on one of his peripatetic sojourns about the city with a grand finale in the way of his defeat and a thorough trouncing when he gets home.

McClure Drain—At the meeting of the common council next Monday night bids will be opened for the improvement of the McClure drain.
